

### **ChemOffice ChemDraw BioDraw**

**ChemOffice** is a powerful suite of software, consisting of ChemDraw, Chem3D, ChemFinder and ChemACX for chemists, BioOffice, BioAssay, BioViz, and BioDraw for biologists, and Inventory, E-Notebook and The Merck Index for scientists.

**BioDraw** is a desktop application for drawing, sharing, and presenting biological pathways. BioDraw makes it easy to draw biological pathways

**ChemDraw** includes Struct=Name, ChemDraw/Excel and ChemNMR. Create stereochemically correct structures from chemical names, and get accurate IUPAC names for structures
